(Global Internship Programme)

Achieving business synergy through internship

About HSUHK & Global Internship Programme

The Hang Seng University of Hong Kong (HSUHK) is a non-profit, private liberal-arts-oriented university in Hong Kong comprised of five Schools (Business, Communication, Decision Sciences, Humanities and Social Science, and Translation and Foreign Languages) with over 5,700 talented full-time students from more than 20 innovative degree programmes.

Global Internship Programme (under the HSUHK "One Student, One Internship" Campaign)

Since 2014, HSUHK has been organizing global internships to connect students with internship opportunities abroad to gain cross-cultural exposure and workplace experiences.

In view of the transformative power of internships on enhancement of students' all-rounded competency, HSUHK has introduced a thematic campaign "One Student, One Internship" with a goal of providing each student with workplace exposure. With the support from employers, the collaboration also allows employers to have ideas exchange with global young professionals and effective identification of future employees in their talent acquisition plan.
