# About HSUHK

The Hang Seng University of Hong Kong (HSUHK) is a non-profit private liberal-arts-oriented university with five Schools (Business, Communication, Decision Sciences, Humanities and Social Science, and Translation and Foreign Languages) and around 6,000 full-time undergraduate and postgraduate students. Adopting the unique “Liberal + Professional” education model, HSUHK is a residential institution which puts quality teaching and students’ all-round development as its highest priorities, featuring top-quality faculty members, innovative degree programmes, unique residential college system combining living and learning, very close student-teacher relationship, impactful research, and excellent student development/ support services, etc. The University aims to nurture young talents with critical thinking, innovative minds, caring attitudes, moral values and social responsibility.

## Profile of HSUHK Students

HSUHK students and graduates are commended as possessing positive attitude, reliable and striving to perform. They have well-rounded understanding of business knowledge and communication skills through comprehensive academic training and experiential learning along their course of study.

## Careers Fair

Every year, over 100 renowned corporations from various industries converge at HSUHK campus in February or March, looking for talents for their graduate and internship opportunities at an annual signature event - HSUHK Careers Fair, in either hybrid or face-to-face mode.

## Recruitment Talk

Local and international corporations from diverse industries are invited to stage recruitment/ career talks on/ off campus all year round, providing HSUHK talents with opportunities to understand potential careers within an industry and get valuable insights from industry players.

# Student Internship Programmes

Internship is an essential part of the U-life! It allows students to attain authentic work experiences, develop business network and cultivate business etiquette skills. Meanwhile, it also provides a platform for employers to have early talent identification. Internship arrangement gives both employers and student interns an opportunity to consider whether students' passion, personality, and strength match with employers' needs and culture upon graduation.

Acknowledging the importance of internship experience in enhancing students' competitiveness in the job market, the University provides over 1,500 local and global internship opportunities annually on average to HSUHK students.

## Local Internship

Annually, hundreds of corporations of different size across industries hire our students through the Local Internship Scheme to support their business during term-time, summer or winter break.

## Campus Internship Scheme (CIS)

Campus Internship Scheme, as part of our student development plan, aims at equipping HSUHK students with internship experience within the University to facilitate their career exploration in the real working environment and enhance their employability in the competitive external job market in the future.

## HSUHK Global Internship Programme (GIP)

Since 2014, HSUHK has been organising global internships for students to gain cross-cultural exposure and international workplace experiences. Through the programme, students can intern in organisations with offices located in 25+ offshore regions for 4 to 12 weeks mostly during summertime. Internship destinations include Singapore, Thailand, Japan, USA, Australia, UK, Germany, Spain, Mainland China, etc.

The strong global network of GIP also offers internship opportunities in various fields, including accounting, banking and finance, cultural management, education, supply chain, government, marketing and advertising, media, real estate, tourism and hospitality, NGO, etc.

# HSUHK Professional Mentorship Scheme (PMS)

The Scheme aims at building up students' professional network by matching participants with mentors who are seasoned professionals and senior executives from different industries. During the Scheme, HSUHK mentees will meet with their mentors to seek career advice and learn from their success stories, while mentors can also understand more about the latest trends among the young generation.

Students could also join the exclusive career workshops arranged by the Scheme to get equipped for the professional world.

## Career Training & Support

To help students explore and understand different industries which they are interested in, and to enhance their skills, competencies as well as confidence needed in the employment market, a wide range of career workshops are organised throughout the year, covering career planning, CV writing, interview skills, mock assessment, professional grooming, workplace adaptation, thematic topics, one-on-one career advisory sessions (CAS), etc.
